Rocket Cinema can provide everything you need to host a successful outdoor movie screening event. We partner with businesses, art organizations, churches, and schools to create outdoor events that bring communities together safely.

Our basic service is $1000 for nonprofits and $1500 for corporate clients.
This service includes:

- High Definition projection system, 11k lumen Barco projector
- 40' wide, inflatable screen
- DVD/ Blu-Ray player and connections for computer or gaming consoles.
- FM audio transmission for car stereos and a microphone for announcements
- Technical crew to deliver, setup, and tear down the equipment
- Whisper quiet generators, no extra power required
- Standard 3 hour rental period

Additional services:

$250 for PA system (required for non Drive-In events)
$200 charge for water ballasts (if unable to stake into the ground to secure screen)

FREQUENTLY ASKED QUESTIONS

How many cars can you service for a Drive-In screening?
Our equipment can provide a great movie screening experience for up to 70 cars.

How many people on a lawn?
We can serve up to 1,000 people seated on a lawn. With social distancing, this number is reduced to 500.

How long does it take you to set up?
Our crew can have the entire system up and running in approximately 2 hours. They can disassemble and load out in approximately one hour.

When can the movie start?
We generally prefer to start screenings no earlier than the end of "civil twilight". Find that information for your event here: https://www.timeanddate.com/sun/usa/austin.

How do I license a movie?
Most major motion pictures are licensed through two companies: Criterion and Swank. Their websites are listed below. Browse the catalogues, select a film, and apply for a license. They will reply with a quote based upon your film selection, location of the screening, and size of your audience.
